■ 10 mg/160 mg/25 mg ■ 10 mg/320 mg/25 mg

Noforge HCT® (amlodipine, valsartan, hydrochlorothiazide) Tablets is a high blood pressure medication.

Noforge HCT® (amlodipine, valsartan, hydrochlorothiazide) Tablets

is indicated ONLY as substitution therapy for the treatment of hypertension in patients whose blood pressure is already adequately controlled on the triple combination of amlodipine, valsartan and hydrochlorothiazide taken either as three single component formulations or as dual –component formulation with a single-component formulation, all components at the same dose level.

Dose once-daily

Noforge HCT® may be used as add-on/switch therapy for patients not adequately controlled on any two of the following antihypertensive classes: calcium channel blockers, angiotensin receptor blockers, and diuretics.

Noforge HCT® may be substituted for its individually titrated components for patients on amlodipine, valsartan and hydrochlorothiazide . The full blood pressure lowering effect was achieved 2 weeks after being on the maximal dose of Noforge HCT® .

Food and Drug Administration (FDA) approved .Prescription Only (POM)
