

**softaxel**<sup>®</sup>  
PACLITAXEL INJECTION

30MG, 100MG & 260MG

A chemotherapy drug given to treat ovarian,  
breast and non-small cell lung cancer.

Softaxel<sup>®</sup> (Paclitaxel Injection) manufactured with human albumin is used to treat breast cancer that has not improved or that has come back after treatment with other medications. Softaxel<sup>®</sup> (Paclitaxel Injection) manufactured with polyoxyethylated castor oil is used to treat ovarian cancer (cancer that begins in the female reproductive organs where eggs are formed), breast cancer, and lung cancer.

Softaxel<sup>®</sup> (Paclitaxel Injection) with polyoxyethylated castor oil is also used to treat Kaposi's sarcoma (a type of cancer that causes patches of abnormal tissue to grow under the skin) in people who have acquired immunodeficiency syndrome (AIDS). Softaxel<sup>®</sup> (Paclitaxel Injection) is in a class of medications called antimicrotubule agents. It works by stopping the growth and spread of cancer cells.

#### DESCRIPTION

Softaxel<sup>®</sup> (Paclitaxel Injection) is a clear, colorless to slightly yellow viscous solution. It is supplied as a nonaqueous solution intended for dilution with a suitable parenteral fluid prior to intravenous infusion. Softaxel<sup>®</sup> is available in 30 mg (5 mL), 100 mg (16.7 mL), and 300 mg (50 mL) multidose vials. Each mL of sterile nonpyrogenic solution contains 6 mg paclitaxel, 527 mg of purified Cremophor<sup>®</sup> EL\* (polyoxyethylated castor oil) and 49.7% (v/v) dehydrated alcohol, USP.
