Who we are

Our purpose

We reimagine medicine to improve and extend people's lives. We use innovative science and technology to address some of society's most challenging healthcare issues. We discover and develop breakthrough treatments and find new ways to deliver them to as many people as possible. We also aim to reward those who invest their money, time and ideas in our company.

This photo Mukamudenge Melaniya, a potter living in rural Rwanda, receives treatment for malaria and other ailments at a local healthcare outpost run by a nurse-entrepreneur and affiliated with One Family Health, a nongovernmental organization.

Protect Health And Life
WITH NEW ANTICANCER PRODUCTS

Life is a health journey which can be protected against life- threatening infectious diseases. Conquering Cancer

We want to transform the landscape of cancer treatment and significantly improve the lives of cancer patients worldwide.

SPEEDING ADVANCES AND BREAKTHROUGH MEDICINES TO PATIENTS

Our robust pipeline of novel cancer medicines will help deliver meaningful breakthroughs that drive innovation and transform the cancer treatment landscape.

We aim to significantly improve the lives of cancer patients worldwide with approved therapies for a broad array of cancers. Our robust pipeline of novel medicines will help with our goal to deliver meaningful therapies that transform the cancer treatment landscape.

BUILDING ON A STRONG PORTFOLIO

At Taj Pharma, we strive to bring innovative treatments to the forefront by developing therapies that provide maximum efficacy while minimizing adverse effects for the patient.

Our current portfolio of oncology therapies covers a range of cancers.

HOW MUCH DO YOU KNOW about the FOLLOWING TYPES OF CANCER?

Percent of respondents who reported that they know a good amount:

40 % BREAST

31 % LUNG

28 % PROSTATE

28 % COLON

27 % OVARIAN

22 % LIVER

22 % PANCREATIC

Conquering Cancer

Taj Pharma Oncology is inspired by patients to revolutionize the research, development and manufacturing of innovative, high quality medicines that help to improve and extend people's lives.

Each year there are more than 17 million new cases of cancer worldwide, and the overall incidence rate is climbing.

In response to this global health concern, we are rapidly learning better ways to treat many forms of the disease.

TAJ PHARMA's oncology division deals with haemato-oncology and solid tumor products. These product portfolios consist of molecules that are of decisive therapeutic importance in cancers of blood, liver, kidney, lung, brain, breast, ovary etc.

Our essence of making decisive therapies AFFORDABLE has translated formulations into life savers in true sense.
